

# Action Sheet

**MEETING DATE:**

**March 29, 2023**

**AGENDA ITEM:**

Discuss and Consider the approval of Lit Service for District Wide Area Network (WAN) Proposal

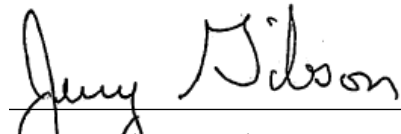

GISD utilizes a dedicated ethernet point-to-point connection service for the Wide Area Network (WAN) that interconnects between the Network Operations Center (NOC) located at 3904 Avenue T Galveston, TX 77550 to the various school sites around the island. This service provides access for students and staff to many resources managed by the MIS department such as internet traffic, Skyward Student records, HR, Financial and User data.

This service contract sunsets on June 30, 2023. As a result, GISD issued a competitive sealed request for proposal # 2022-23-010 on January 17, 2023.

GISD received four competitive bids on February 24, 2023. A selection committee of four individuals from multiple departments reviewed, scored, and ranked the bids. GISD would like to continue the 10g (ASEoD) Lit service option with ATT Spin # 143004662, at the pre-discounted rate of \$4,800 for 36-month period following the committee's recommendation.

**RECOMMENDATION:**

**I move the board approve and award the renewal of services to ATT in the amount not to exceed \$4,800 per month for the 36-month period.**
