Background Information:

ADM Group Inc. has been working in conjunction with the Administration to develop a schematic design for the new K-8 Campus. This project was approved by the board earlier this school year. The K-8 Campus Project will be designed for 800 to 1,000 students in grades Kinder through 8th grade. The campus will include a competition gym and field as well as playgrounds for elementary-aged students. The District owns property at FM 973 and Highway 290E where the campus will be built.

Fiscal Implications:

The budget for this project is \$43,000,000. These funds are allocated in the 2019 bond.

Administrative Recommendation:

The Administration recommends that the Board consider and take action to approve the schematic design at the October 18, 2021 board meeting.

Motion Language:

I move that the Board approve the design development for the K-8 Campus Project, as presented.
