

Medford Public School
ISD #763

Medford Elementary School

The letter R – *Respectful* – was introduced at our March Celebration. Third grade students and teachers led the way with a skit and song.

The Standards Based Grading committee continues to monitor the process/progress of our new grading system. We will add social studies and science to grades 4-6 beginning in 2015-2016.

Teachers have met for their spring data days to prep for the MCA's. Specialists did a nice job of presenting data from various sources and viewpoints. In the end, new intervention groups were formed based on focus areas/strands. Goals for students, classrooms and grade levels were established as well.

Attendance for Spring conferences was approximately 99%

A committee has been officially formed to plan our before school conferences. An update will be given at the April meeting.
