March 2023

CSI & ISU CAMPUS VISITS

HHS Gear UP students were able to visit College of Southern Idaho (CSI) and Idaho State University (ISU) on March 1-2. Students had the opportunity to tour the CTE programs at CSI. Students learned about the welding, renewable energy systems, and food processing technologies. They also were able to listen to an admissions advisor and eat in the on campus cafeteria.

After dinner at CSI, students traveled to Lava Hot Springs for a quick soak in the Lava Pools. It was 15 degrees outside, but the temperature in the hot pools range from 102-112 degrees Fahrenheit. It was a great place to relax after a busy day!

The next morning at ISU, students heard presentations from admission advisors and then toured the campus with student ambassadors. After lunch students were able to tour the Idaho Natural History Museum that is housed on the ISU campus.

One the way home, students had the chance to stop at Meridian High School to cheer on the HHS Boys Basketball team as they took on Snake River HS. HHS student had a great time as they learned about post-secondary options. Thanks to chaperones Mrs. Rheuby, Mr. Sauer, Mr. Correa & Mrs. Dorsey!

GREETINGS FROM MR. HOLTRY

We just wrapped up the the 3rd quarter here at HHS! March 16th marked the end of the quarter as we head into the final stretch of the school year. We are excited to see some of the new construction additions around campus starting to take shape. The new office area has been a nice transition even though there will be some adjustments needed to be made as students and community members learn the new layouts, we feel it is a big improvement for many reasons.

Robotics had a great trip to Salt Lake City as the Trobot's represented our school very well. A huge thanks to Mr. Thatcher and Mrs. Jones for all their hard work with this group!

We are looking forward to our spring testing window for ISAT and SAT for our Juniors. Thank you for your continued support of HHS!
