
Education Advanced Pathways Program

How the idea came about

- Currently, we are “hand-tracking” all matters involving graduation requirements, diploma types, ICC requirements, etc.
 - Counselors each have individual ways of doing this making them the “keepers” of this information for their particular students
- We have heard through CounselorTalk that many counselors were finding the **Education Advanced Pathways** program very useful in helping to track students’ graduation progress.
- Several dozens of schools across the state (plus TX and FL) are now using this application to track graduation requirements. Conversations with many of those schools have given us the impression that it has been extremely beneficial and a worthwhile investment

Why there's a need for Pathways

- Tracking Indiana high school graduation requirements has become progressively more complex over time.
 - We are currently having to track two different sets of requirements
 - Pathways allows us to track both Core 40 and the new requirements, and has the ability to tell us if a Core 40 student is closer to achieving the new requirements
- The consequence of not effectively tracking the various components of a student's graduation requirements have become more significant than they were in years past
 - Waiver caps, state funding implications, accountability implications
 - Pathways would be able to help quickly and easily identify students who are behind on certain requirements, or close to fulfilling a requirement that may end up helping them in the long run (ICC completion, seal completion, etc.)

A snapshot of what counselors have to track, then vs. now:

Tracking	2015	2025
Credits	Yes	Yes
Pathways	No	Yes
Waiver Caps	No	Yes
FAFSA Completion	No	Yes
Career Discovery Meetings	No	Yes
Personal Finance requirement	No	Yes
Quantitative Reasoning requirement	No	Yes
Seals & Plus Seals (New Diploma)	No	Yes
Indiana College Core (ICC)	No	Yes

One example of tracking: graduation pathways

Currently, counselors must track the following individual graduation pathways:

- ASVAB
- SAT
- AP/Dual Credit courses
- 24 separate C9 pathways
- The following CTE concentrator pathways:
 - Agriculture (which can branch into 4+ separate pathways by years 2 and 3)
 - Broadcasting
 - Business (both in-person and online)
 - Construction
 - Human Services
 - PLTW Biomed
 - 4 different local pathways:
 - Art
 - Band
 - Choir
 - JAG

Right now, we hand-track all of this. With Pathways, we would be able to more easily and efficiently track students' pathway progress.

MyTracker, within the MyPathways™ Family Portal, gives families and students secure, mobile access to:

- Work, service, and project-based learning hour tracking
- Credit, point, and custom metric monitoring
- Scholarship dollar amount reporting
- Consolidated time tracking in customizable increments

Fully integrated with Pathways®, MyTracker supports district-defined metrics and compliance needs while offering customizable controls to ensure alignment with local goals.
