CHOICE SCHOOLS AND THE STRATEGIC PLAN

Foundations • Talent • Learning

Learning Journey

Student and School Support will collaboratively develop a plan for the future of ECISD Choice Schools that connects to the district's broader vision for student success

Engage community, workforce and district stakeholders for input regarding Choice Schools in ECISD

Identify interests and needs of students, and external stakeholders to develop potential future Choice School options.

Creating additional choices where our students can demonstrate their interest and strengths and parents are partners

DEVELOPING A SYSTEM OF SCHOOL CHOICES

- Aligned with the district's strategic plan.
- Define school quality
- Expand great options
- Create and refine equitable enrollment practices
- Create new organizational structures
