To Whom It May Concern:

I would like to notify you that I will not be returning for the position of Speech-Language Pathologist for Harvey Public School District 152 for the 2019-2020 school year. I am taking a faculty administrative position in speech-language pathology at a university in higher education.

Thank you very much for the opportunity you have given me to learn more about general education and the MTSS system. I have genuinely enjoyed my time with the district, and I believe the experience has taught me much about speech language pathology as well as special education.

Please let me know how I can be of help in the transition period. I wish you and the district the very best in all future endeavors.

Best,

Camille Byrd O'Quin, MA, CCC-SLP
Speech-Language Pathologist
