Technology Advisory Committee

Student Computing Devices

Who are we?

What is our purpose?

 Provide feedback on both current and future technology initiatives to the Technology Information Officer and Director of Inst. Tech.

 Make recommendations to the School Board regarding technology needs and concerns

Our previous work:

Training from district and CTS team, immediately following Winter Break Begins 01/07/13		
	iPad Training - all staff at TIA	SUMMER 2013

Student iPads

Why, you ask...

At this point...

What we've learned:

Opportunities:

- Students will benefit with tablets
- iPad platform appeals to educators
- Windows 8 devices fully integrate

Challenges:

- Purchase of student tablets not approved
- Management of iPad is very difficult.
- Content available on Win. devices and intuitiveness is reduced

We believe that:

- Campuses/Principals should have discretion
- Previously established guidelines for tablet devices should be followed
- Campuses/Principals/Staff should understand the pros/cons of each platform.
- We should avoid adopting nonproprietary platforms

Our Recommendation

The Denton ISD TAC recommends that district/campus funds be made available for the purchase of student tablet devices (including, but not limited to: Dell, iPad, iPad Mini, iPod Touch, and Nook) and any appropriate supplemental items need for those devices (case, insurance, carts, etc...).
