The process for the Camino Real Community Services Memorandum of Understanding (MOU) began with district leadership reviewing the proposed Care Coordination Agreement to ensure alignment with UCISD's Board Goal 3, which focuses on providing a safe and healthy learning environment and increasing access to physical and mental health care for all students. Campus and district administrators collaborated with Camino Real representatives to outline services, referral procedures, emergency response protocols, and follow-up systems to prevent duplication of services. Legal and compliance checks were conducted to confirm adherence to state and federal confidentiality requirements.
