Gentlemen,

I would like to get information about student turnover rates in Unit #8 schools. I don't know what to specifically request and I don't want to tie up your employees time with something too elaborate.

What I am working on, is the notion that the City of Pana has allowed the overbuilding of public housing. That is to say, we have built more than our citizens require. This, in turn has attracted 'temporary' residents from other communities who stay here for only the amount of time that is required to qualify them to move on to their original target location.

I have heard that this causes a large amount of turnover in the Pana classrooms. If it is not too difficult to compile. I would like to see any numbers you can provide that would reflect the annual turnover rate in our schools.

Thank you,

Gregory P. Holthaus, PE
