Use of Feature Films/Video

The Board recognizes that the showing of commercially-produced and rated feature films and videos may have a legitimate purpose in a school's educational program. However, since the content of these feature films customarily is designed for general audience viewing, the Board feels that certain precautions should be taken to ensure the showing of a particular film is consistent with the educational values espoused by the district. Only films/videos with administrative approval may be shown as part of the school program.

Teachers should not assign the viewing of a film as a part of coursework unless the film/video meets the above requirements.
