Dear Colleagues,

I'm excited to share a new opportunity for administrators this summer as part of this year's **iChampion Summit**. For the past two summers, hundreds of teachers have gathered to grow professionally and refine their practice. This summer we are excited to launch a **new strand** of iChampion, and it's **specifically designed for school and district level leaders**.

To provide the best possible experience, we're bringing in three of the top known leaders in this area to organize and run the strand; Thomas C. Murray, Jimmy Casas, and Joe Sanfelippo. Entitled "**Living Your Excellence, Growing Your Influence, and Transforming the System**," Murray, Casas and Sanfelippo will work directly with school leaders to celebrate their success, push their thinking, and challenge the status quo.

ASCD best-selling author Thomas C. Murray, will bring the message of his latest book, Learning Transformed: 8 Keys to Designing Tomorrow's Schools, Today. Jimmy Casas will challenge leaders to create cultures of innovation, highlighted in his best-selling book Culturize. Joe Sanfelippo, author of Hacking Leadership, will push our comfort zones and support our work in refining our leadership skills. As three leaders of the Future Ready Schools initiative, various aspects of the Future Ready Framework will be explored as your transformation is supported over the two days.

Join us at this year's **iChampion Summit - Leadership Edition** in Stephenville, Texas on July 24th and 25th!

### iChampion Leadership Strand

**Living Your Excellence, Growing Your Influence, and Transforming the System.**

**Every school leader has greatness built inside them; a greatness that can only be unleashed when they are walking in and towards their purpose. So how can one's 'personal why' fuel the synergy needed to disrupt the system? How can we eradicate "average" and find innovative, practical solutions to issues that have plagued the system for years? Solidified upon a foundation of dynamic leadership and school culture, a redesigned learning experience fundamentally shifts the teaching and learning paradigm to one that is personal and authentic, takes place in spaces that mirror a transformed pedagogy, and leverages the power of today's technology. It's time to live your excellence, expand your influence, and lead the charge!**

We hope to see you and your team here in Stephenville as we will work collaboratively to support our schools and further transform our teaching and learning to create the schools our kids need.

Respectfully,

**Matt**
