Background Information

The safety of our students and staff is Duncanville ISD's highest priority. As part of Governor Abbott's school safety directives after the Uvalde tragedy, the Texas School Safety Center recently conducted Intruder Detection Audits at one or more of our campuses. These audits test campus security and help identify areas for improvement, such as door safety.

We're working with our School Safety & Security Committee to review findings, train staff, and enhance campus safety. While we understand community interest, specific results cannot be shared publicly to protect security measures. The full results are reviewed in executive session with the Board and discussed with the committee. Duncanville ISD remains committed to providing a safe and secure learning environment for all students and staff.
