Please explain why the action you are requesting should take place and include any relevant information, including references.

The grants offered by the 2018 legislature were appreciated but restrictive. We have areas that were not covered by the grants which need addressing that we simply don't have the money for. The grants made it seem like districts competed against each other for these funds that are needed by all districts.

11. Rationale: *

Please share REASONS why the action you are requesting is needed.

All schools have areas that need to be updated to make their school buildings secure and safe for students and staff, but lack the funding to make these improvements.
