

Executive Summary

Prepared for Board of Trustees Meeting April 23, 2024

Denton ISD Utility Management Audit

Board Goal:

VI. Growth & Change ... In pursuit of excellence, the district will:

Be environmentally responsible and aggressively pursue energy efficiency and conservation principles in building design, transportation alternatives and operating procedures.

Purpose of Workshop

The Purpose of this audit is to inform the Board of Trustees of utility management processes in all Denton ISD's facilities from July 2023 – December 2023.

This audit includes the following:

- 1) Total consumption and cost comparison.
- 2) Analysis by utility type.
- 3) Percentage change of energy use.

Objectives

- Provide the District with a means to monitor all utilities on a real time basis and adjust schedules as needed for a more efficient use of resources.
- Integrate high performance or green technologies within existing District facilities.
- Continue to address and meet state mandated goals for energy reduction.
- Provide safe learning environments for students, staff and public.

Operational Impact

- Continue to tightly manage building operation using current information and the BMS/Control System
 - Over 9,000 Pieces of HVAC Equipment
 - Over ~ 2500 Individual Points / Zones of Irrigation Control
-
- Potential Opportunities
 - More energy walks.
 - Implementation of no-cost/low-cost energy conservation measures
 - Verification of Smart Meters
-

Executive Summary

Prepared for Board of Trustees Meeting April 23, 2024

Denton ISD Utility Management Audit

Results

This information is provided to the Board of Trustees to ensure they are kept abreast of the District's energy consumption. This also provides a comprehensive plan for more energy reductions in the future. We will continue to monitor all public resources to offer safe and secure learning environments for students, staff, and the public.
