February:	February:
March:	March:

April:	April:
May:	May:

Strengths:

Both Christmas Programs were amazing and had a wonderful turnout by parents, grandparents, bothers, sisters, and guest of the colony schools.

Needs:

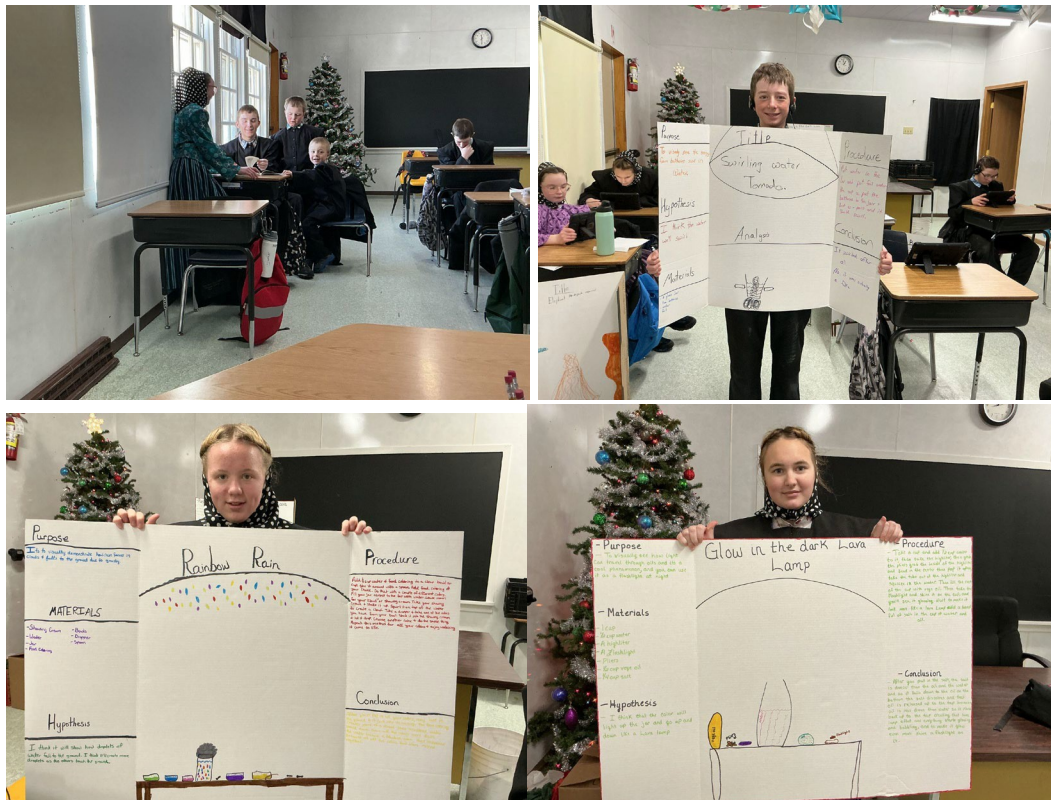

Glendale Colony School will be preparing to take the NAEP (National Assessment of Educational Progress) in March. Ms. Whitford and Mrs. Rappold will be working with the Technology Director and State NAEP Coordinator to coordinate the assessment.

Okii!

December has been a very busy month. We had 3 amazing discoveries. One of our seventh graders is a talented narrator that attracts all the younger students to him while he reads. He has an impressively humorous tone. Another amazing discovery is a genuine excitement for Science experiments; and we learned that not all internet experiments are real. Our third discovery was the magical Christmas Program that the students created. Glendale Colony students can sing beautifully!

Board Report for Big Sky Colony December, 2025

As for many of us, December was a very busy month at Big Sky Colony School. We spent as much time as we could preparing for our Christmas program while creating Christmas crafts, decorating our school, and continuing to learn on top of it. It is always such a proud moment when the program comes together and this year was a hit! We even had a first grader dressed as Santa to surprise the audience and that, among our other plays and songs, made it one of the best yet!

Beyond that, our December went by quickly and we are looking forward to getting back into our normal routine when we return from Christmas Break. The rest of the year will be full of learning, working hard, and improving our students as much as we possibly can. Happy New Year from all of us at Big Sky Colony School, we wish you nothing but the best in 2026.

Sincerely,

Jackie Gregoire
