TEACHER IMPACT STORIES

Real classrooms. Real innovation. Real results.

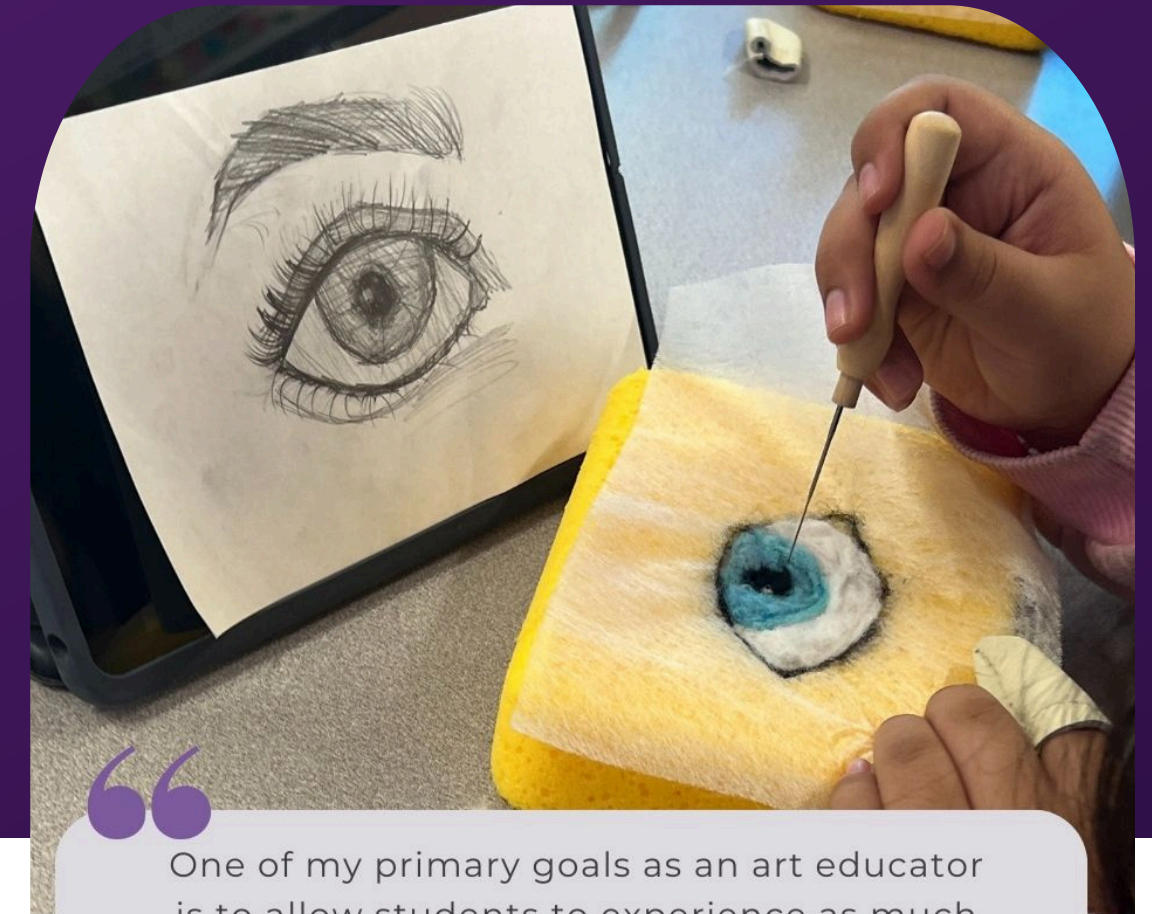

“ Last year, with the newly implemented TSIA preparation, we had a 50% increase in passing scores from the previous year. This increase will likely increase the number of students who complete IMPACT ECHS with both their high school diploma and associates degree.

Dr. Carita Curry, IMPACT ECHS ”

“ The VR experiences significantly increased student engagement and curiosity. For example, during the virtual canyon field trip, students not only explored geological formations but also applied AVID strategies by recording observations in their learning logs and asking higher-level questions.

*Tailis Oniwon, Principal
Crockett Elementary* ”

“ One of my primary goals as an art educator is to allow students to experience as much different media as possible. This grant provided me with the chance to introduce a material I have never been able to share with students before!

*Cathy Leija, Teacher
Highlands Junior High* ”
