RE: Fall Housing 2012

Each year school districts must report enrollment to ISBE the number of students enrolled as of the last school day in September.

Beginning with the 2008-2009 school year, school-level fall enrollment counts are based on enrollment and exit dates reported for individual students in the ISBE Student Information System (SIS).

Attached are the Fall Housing Figures for 2012-2013 and 2011-2012. Our low income percentage for 2012-2013 is 21.7%. That is a .4% increase from last year.

Schools listed in green are Title I schools. District 97 Title I schools are identified as elementary schools that have a percentage of low income students that is higher than the district average. Please note that for 2012-2013, the percentage of low income students at Longfellow (21.4%) and Holmes (19.0%) is below the district average (21.7%). For the 2013-2014 school year, Longfellow and Holmes will receive a one year "grandfathering status" to retain their Title I status for that school year.

Fall Housing Figures
2011-2012
and
2012-2013

	2011-2012		
	Enrollment	Low Income	Percentage Low Income
Beye	430	111	25.8%
