Estimate

Name/Address
Oakland Elementary School Attn: Cari Trinidad

Date	Project
03/14/2025	Pole Concrete base

Description	Qty	Total
<p>Excavate as needed to install a concrete pier/base for a pole that will support one piece of playground equipment. The base will be installed 18" wide by 12" deep as per manufacturer's specifications. The base will be installed with concrete poured at the required height or match the existing ground elevation. Install the pole in the freshly poured concrete brace the pole to keep it plumbed, let the concrete cure for 48 hours. Remove the braces and install the piece of equipment on top of the pole as per manufacturer's instructions. All the spoils will be hauled away.</p> <p>Any questions about this estimate contact Ruben</p>	1	\$ 920.00
