D97 Board of Education Meeting

Dr. Ushma Shah, Superintendent

Dr. Anna Colaner, Sr Director of Data Analytics and Research

Michael Arensdorff, Chief of Technology Officer

Excellence without Equity

Both groups improve

but achievement gap gets wider
*because the Blue Group improved
at a faster rate*

Equity without Excellence

Achievement gap narrows

*because **only** the Red Group
significantly improved*

Excellence with Equity

Achievement gaps narrows

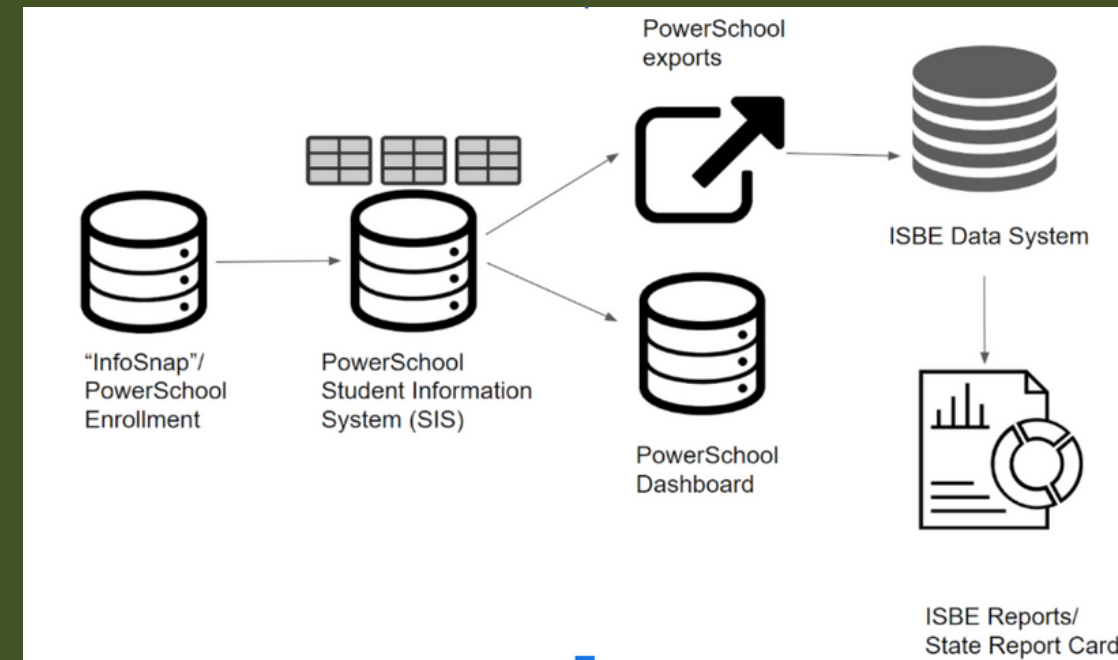

*because both Blue and Red
Groups improve*

*and Red Group improved at a
faster group*

Standards-based Learning: *Proficiency versus Growth*

What does the Equity Policy call for? Start with Academic Components of “Equitable Access”

Identify analytic questions to assess progress

Walk-Through of Illinois Report Card Data metrics connected to Academic Components of “Equitable Access ”

Gather BOE questions for further inquiry

What does the Equity Policy language call for?

We are committed to providing “equitable access to high-quality instruction, culturally relevant curriculum, grade appropriate assignments, high expectations, facilities, and other educational resources”

School Improvement Plans are anchored to mastery (and growth) on learning standards as long-term outcomes of our work to ensure our core instruction supports the success of students across demographic groups.

What Analytic Questions Will Assess Our Progress?

To what extent are our students across every demographic group mastering learning standards?

To what extent are our students across every demographic group -- regardless of mastery -- growing on the learning standards?

Are we growing students across demographic groups at the rate needed to close the achievement gap?
