

Dear School Board members,

Tonight, I am honored to recognize four exceptional educators from Myers-Wilkins Elementary School. These individuals demonstrated extraordinary courage and quick thinking in a critical situation.

Breelynn Frischmann, Cory Henkel, Melissa Bolander, and Sara Weller went above and beyond their regular duties, exemplifying the true spirit of dedication and bravery that we value in our district.

On Friday, Sept. 13 at Myers-Wilkins, these four individuals found themselves faced with an unexpected scenario when a SUV crashed into the wall of the school gymnasium.

Without hesitation, they sprang into action, responding immediately to assist a severely injured passenger and driver.

Their swift response and calm demeanor in the face of this emergency was truly commendable. Breelynn, Cory, Melissa, and Sara provided crucial assistance and comfort to the injured individuals until emergency personnel arrived on the scene.

They demonstrated exceptional bravery, compassion, and presence of mind under an extremely stressful situation.

We are immensely proud of their heroic actions. Their response went far beyond what is expected and they deserve our deepest gratitude and recognition for their courage and selflessness.

Please join me in congratulating and thanking them as they embody the values of care, responsibility, and community that we strive to instill in our schools.

Sincerely,
Anthony Bonds
Assistant Superintendent
