

## **SCHOOL BOARD MEETING REPORT**

Board Meeting Date:	16-Nov-09	Agenda #	
Staff/Administrator:		Superintendent:	Dan Huber-Kantola
Type of Item:	Informational	Action	
Please state your proposal briefly and clearly. What do you want the board to know, discuss, or decide?  met with Aaron Ausland and he is looking into the seismic retrofit grant available through the state. Aaron's research state very few people are applying for the grant and the old Applegate School may fall nicely into the grant specifications. We believe Applegate meets the criteria, and we have applied for the grant in cooperation between the Three Rivers Foundation and the Applegate community. The grant would pay for the construction etc. The District would not have to do that. There was about a \$4,000 to \$5,000 up front cost to get the specs to submit for the grant. A community member has already donated the money to cover those fees. It would be much more than that but Aaron is donating his time and work.  Provide history/background information on your proposal.  n 2000 the 1912 brick building at Applegate was closed because of seismic issues that the district could not afford to			
repair. The historic building has List the advantages of year f the grant is awarded the distripand the community.	our proposal:	e able to restore a classic build	ding to use for both education
List possible disadvanta While the grant would pay for the the decision was to re-open the	ne structural repairs, there n		e not covered by the grant if
List possible alternatives that could also offer a solution to your proposal. Why were they not recommended?			
Superintendent's recom	mendation(s):	<b>Approve:</b> Yes	No No
