

Summer School Partnership

The past several years we have only had funding for a migrant summer school program. We are excited to enter a partnership with Teach for America that will enable us to expand summer school to additional students and grade levels. We will have Pre-K to 8th grade classes. Our staff will have a unique opportunity to train as mentors and oversee TFA corps members that will be taking on classrooms of their own in Idaho for the fall.

Trojan Connection Pantry

Abby and Kelsey had the honor of representing Trojan Connection Food Pantry and the Homedale School District at Food Security Day- Day on the Hill at the Capitol. They were able to share about our rural, school-based pantry and the impact it has on our community. Please see the attached flyer that they were able to share. Please note, the actual updated pounds we have received from the Idaho Food Bank as of today is 130,127 pounds rather than the 68,100 noted on the flyer.
