Re: Chartwells

-The countertops at the High School were completed and attached are the pictures of the completed work!

-The company putting together the serving lines are behind on production, so it will be after September 2nd that the serving lines for the Junior High are complete. We are coordinating with maintenance and IT to get them put in on Fall Break.

-All the Vent Hoods & floors are being cleaned by a local company, Top Vent, this week and should be completed early next week.

Thank you.
