Proposal Number: 20250820-HarlemSchoolDist122RalstonElementary

Hello Joshua,

Thank you for allowing Thayer Energy Solutions to be your partner in updating your business with the most energy efficient lighting products. You have taken the first step to reducing your energy costs, reducing your operating costs and providing the best work environment for your employees and customers.

On the following pages you will find a summary of the savings you will experience as well as your total project investment. If you have any questions about this information, please contact your Energy Advisor.

Should you find our proposal to be acceptable, you need only sign the final page of this document and return it to your Energy Advisor. Our Project Manager will then be in touch with you to schedule the installation of your new energy efficient systems.

Since 1988, Thayer Energy Solutions has retrofitted over 100 million square feet of commercial industrial space. I am confident you will find our customer service to exceed your expectations. As the owner of Thayer, I personally guarantee the integrity of our staff and quality of our products.

Thank you for the opportunity to work with you.

DOING YOUR PART

LED lamps and tubes not only consume a fraction of the energy consumed by older lighting technologies like incandescent lamps, they can last almost five times as long. LEDs also contain no mercury. By doing nothing more than investing in this lighting upgrade, you've done your part to help future generations enjoy our planet.
