March 20, 2025

Dr. Theisinger,

I am seeking approval so that I may attempt to sell the [Trotter branded cabled machines](#), squat rack, bench press, unused rubber flooring tiles, and any other additional older equipment that needs to be removed to make room for the new items. We recently approved the purchases of new strength training equipment that will emphasize more of a free weight approach to strength training compared to these cabled machines. The aforementioned items will first be offered to PCJH. Items for which they don't have the space or for which they don't see an applicable need will be the items we try to sell.

To the best of my knowledge, much of the weight room equipment, including these cabled machines, were donated to the high school after the LTV Steel plant closed in 2009.

Any funds raised from the sale of these machines could help offset the cost of the new equipment or be used for future improvements to the cardio options available in the weight room. If they cannot be sold, we would look to get scrap value for them.

Sincerely,

Chris Newsome  
Assistant Principal/Athletic Director
