

Consider Approval of
Architectural Services for the District Wide Fencing Project

1. Background:
On May 6, 2023 the Southwest ISD voters approved a \$250 million bond to allow the Southwest Independent School District to build two new elementary schools, a new central administration/ professional development center, install safety upgrades at all campuses, and renovate or add on to multiple other campuses district wide. The Board of Trustees ratified the vote results on May 16, 2023.

2. Process:
District staff is ready to begin the District Wide Fencing Project. Alamo Architects is one of our pre-approved firms for Architectural Services through our RFP 2223-111.

3. Fiscal Impact:
SWISD staff has negotiated professional fees with Alamo Architects based on the scope of work for this project at 3.5% of the overall construction cost.

4. Recommendation:
It is recommended the Board consider approval of Alamo Architects to provide architectural services for the District Wide Fencing project.

5. Required:
Board action.
