

# AGENDA ITEM

---

**Subject:** Consider bid to upgrade the HVAC control system at HIS.

**Rationale:** The HVAC automation system is the original system that was installed when the Intermediate was built. This current system is a TREND which is now obsolete because the company pulled out of the U.S. Parts and service were no longer available and maintenance has been limping along for about two years after it crashed. Raymond received one bid for \$72,800 for the Intermediate system which includes labor for the installation of the new controllers but feels that we will be able to install it for much less since much of the work will be done in-house.

Attached is a copy of the proposal that was submitted to Mr. Nors for an HVAC automation system.

**Recommendation:** Approve the bid from TEAM Solutions, INC for HVAC upgrades at Hillsboro Intermediate for up to \$72,800.
