Summer School

We are late in getting information out but we are happy to be holding an enrichment summer school June 13-24th and summer school registration will be occurring shortly– I will explain more about summer school at the board meeting.

Library News – Mrs. Norman

April was another busy and exciting month. Kindergarteners worked on their alphabet and learned how books are shelved in the library. First graders focused on Fairy Tales. First they created code story maps for the Ozobots to Goldilocks and the 3 Bears. They also built structures to hold their characters or keep them safe for The 3 Little Pigs, The 3 Billy Goats Gruff, or The 3 Bears. 2nd, 3rd and 5th graders learned more about how the library works and being respectful, responsible, and safe users of technology. The fourth graders kicked off their study of National Parks with a virtual online visit with a park ranger visit of Timucuan ecological preserve in Jacksonville, Florida. They will be researching a National Park of their choice and then creating a promotional video for it. You should have seen a reusable free pass to National Parks come home. All students in Grades 2-5 were able to select an egg from the basket with a barcode to a mystery book. The color of the eggs matched the different genres (types) of books in our fiction section. This was a huge hit as students read books that they probably wouldn't have chosen before. After 6 weeks of sewing during WIN time on Fridays, we have wrapped up sewing. 55 students in grades 3-5 sewed a pillowcase. About 45 students have signed up to learn cribbage which started on Friday, April 22, and will go to the end of the school year and will conclude in a tournament! Finally, the end of the year is approaching quickly. All library
