

**Superintendent/Assistant Superintendent  
Board Report  
June, 2024**

- The JROTC, under the guidance of Col. Luckritz and SMSgt Janas, recently participated in a Cadet Leadership Course with five other area schools. This three-day course was a resounding success, providing our local Air Force JROTC Cadets with valuable leadership and communication skills and the opportunity to collaborate with cadet leaders from other programs. We are proud of their achievements and the positive representation they brought to our school district.
  
- Bluffview and Dupo Jr./Sr. High are taking a proactive approach to academic excellence. They will be implementing a new ELA curriculum during the 2024-2025 school year and a new Math Curriculum in the high school. This summer, professional development will be offered to our teachers to ensure they are well-prepared for the new curriculum, demonstrating our commitment to providing the best education for our students.
  
- After a year of preparations and valuable staff and parental input, Bluffview is ready to implement new arrival and dismissal procedures at the start of the upcoming school year. These changes are designed to streamline the process and enhance student safety. They have been communicated to the school community well in advance and will be reiterated at Open House to ensure a smooth transition.
  
- Our ESSER funding plans are posted on the district website. The majority use of these funds are for support of additional instruction due to learning loss during the pandemic, including after-school tutoring, summer school, and new certified instructional positions that were added to support small group instruction and delivery of interventions. Additional expenses are technology, air quality, and security.
