**SUBJECT: LICENSURE REVIEW**

The Illinois State Board of Education's Special Education Services division recently conducted a licensure review of Mid-Valley Special Education Cooperative. The document review was based on a comparison of the Mid-Valley Special Education Cooperative's Master Personnel Assignment Listing for the 2014 – 2015 School Year and the Mid-Valley Special Education Cooperative's FY 15 Staff listing with IEINs against the State Licensure System - Educator Licensure Information System (ELIS).

Upon completion of the review, all personnel records were found compliant and all credentials were properly registered.
