- Among children with ***two risk factors—poverty and reading skills*** below the proficient mark— ***26 percent do not graduate from high school***, compared to 9 percent with these subpar reading scores who have never experienced poverty.

Adopting an RTI model is about adopting best *professional practice*, insisting that we do what is best and necessary for all students in our schools, and, finally, *rising to the challenge* of doing that which is socially just. That is why we must adopt an RTI model and *implement it with integrity* in every school throughout the nation.
