**TO:** Board of Directors  
**FROM:** April Olson, Director of Curriculum & Student Learning  
**DATE:** June 17, 2026  
**SUBJECT: Comprehensive Substance Use Prevention and Intervention Plan**

---

Oregon school districts provide comprehensive substance use prevention and intervention services to K-12 students which include:

- Evidence-informed prevention education for K-12 students, including opioid prevention instruction
- Fear and shame-free communication with students and families
- Intervention and referral processes to support individuals impacted by substance use
- Overdose prevention and emergency response planning
- Professional development, training and support for school staff

OAR 581-022-2045 requires a comprehensive plan for substance use prevention and intervention. Plans must include K-12 substance use prevention education that meets the Health Education Standards including a minimum of one ODE Opioid Prevention Education lesson in grades 6, 7, and 8 and one in High School. The intervention plan must also include: school policies and procedures on substance use; resources and referral processes; and training and procedures for staff.

The Centennial School District is committed to a safe, healthy and supportive learning environment for all students. The Comprehensive Substance Use Prevention and Intervention Plan outlines this commitment, reinforcing current policies and prioritizing evidence-informed prevention education and communication, coordinated intervention processes, and professional learning for staff to uphold a drug-free education.
