

Special Programs June Report 2023-24

Jeri Harbison

Title 1A/Parental and Family Involvement-Policy IGBC

The North Santiam School District has two schools that qualify for and receive Title 1A funds, Mari-Linn and Stayton Elementary School. Under Board Policy IGBC, the District is required to engage families in the overall Title 1A planning and provide meaningful and inclusive activities in which all families can participate in these events.

Parents are provided with the Reading Compact in each school's Student Handbook. This compact states the goal of a School-Wide Title 1 Program and how each member will contribute to the success of all students. These members include the student, teachers and parents.

Both schools are currently developing their school wide Title 1 plan for the 2024-25 school year using the Oregon Department of Education's recommended planning tool. They will review and analyze data, draft goals and develop a plan with school, parent and community stakeholders.

Mari-Linn held their family engagement night on Tuesday May 14th at 6pm. Provided in the evenings activities included information on how funds are used, how students are selected, and how services are provided. Other activities included literacy based games and at home engagement strategies. Here are the links to these artifacts for Mari-Linn:

Stayton Elementary held their Literacy Night on October 26th at 5:45pm. Families participated in literacy based activities in fun and engaging ways. Over 250 books were distributed to anyone from birth to high school age. Information regarding the Title 1 services and the Nightly Reading Program was presented.
