

UNITY SPECIAL EDUCATION BOARD REPORT

MARCH
2024

CHILD FIND

Child Find is a component of the Individuals with Disabilities Education Act (IDEA) that requires school districts to identify, locate, and evaluate children with disabilities who may be in need of special education services. Child Find helps ensure that all children, regardless of their disability, receive appropriate educational services and support to help them succeed in school. By actively seeking out and identifying children who may have disabilities, school districts can provide early intervention and support services to address any potential learning difficulties or challenges.

The Department of Public Instruction recommends the use of an informed Referral Network comprised of community partners working together to identify and serve young children and their families. Forming relationships and working with solid partners have proven to be the most effective practices in identifying children with disabilities. Partners help screen and provide information about community resources. Community partners can also refer children who may have a disability and a need for special education. At Unity, most referrals for early services come from families, medical and mental health providers, county and tribal agencies, Head Start, LEAP, and Early Learning Days. All children entering PK next school year are invited to Early Learning Days on March 13 and 14 from 3:30 pm to 7:30pm. Child Find screening occurs and evaluation referrals for Special Education are likely to come from this event.

UNITY ELEMENTARY EARLY LEARNING DAYS

WEDNESDAY, MARCH 13 AND THURSDAY, MARCH 14
TIME: 3:30PM-7:00PM
LOCATION: UNITY ELEMENTARY SCHOOL
FREE DINNER!
