BEEVILLE INDEPENDENT SCHOOL DISTRICT**

**Date: November 21, 2006**

**Subject: Capital Outlay Requests**

**Submitted By: Mrs. Jones**

**ACTION**

**BACKGROUND INFORMATION:** During the budget process for school year 2006-2007, the board subcommittee for finance asked the Executive Director for Finance to set aside \$50,000 for capital outlay, with the understanding that district personnel would then request from the board permission to purchase items from the fund. Mrs. O'Connell explained that capital outlay items are items that cost, either individually or in aggregate, at least \$5000. In discussions with the principals it was determined that some of the items needed do not meet this requirement for capital outlay, so the request is to move the funds to either supplies or contracted services for some of the items.

A summarized request with descriptions of the items needed and the amounts is included in the agenda. The board is asked to take action on some or all of these requests. School personnel were given more than one month to come up with requests. Some campuses do not have requests at this time.

**ITEMS ADDRESSED:**

Capital Outlay Fund Requests

**RECOMMENDED ACTION:**

Approval of some or all of the capital outlay fund requests

**BUDGETARY INFORMATION:**

**Capital Outlay Requests**

Principals, consultants and assistant principals have a handheld device called an IPAQ. This IPAQ can be used for calendar, email, Word and Excel documents, etc. It also has a program on it for PDAS (Professional Development and Appraisal System) and for Win School. By using the device, school personnel can take notes on evaluations of teachers, can view teachers' and students' schedules and can even see pictures of the students. School personnel would like to request an additional program to be added to the IPAQ. This is a program for documenting walk through information, based on Classroom Walk Through training they have all had. This is a modification to the program administrators are already using to improve instruction in the classroom by documenting walkthroughs and other classroom observations. The cost of the additional program is \$900. This was not in the original budget. If approved, this amount would be moved from capital outlay to contracted services. This program is being requested at the district level, but would be used by district and campus personnel at all campuses.

Capital Outlay Proposal  
Elementary Library Office  
Melissa Hughes, Budget Manager

Attached please find a quotation from Scholastic Library Resources in the amount of \$7,500.20. The quote includes books and Accelerated Reader tests for the five Beeville ISD Elementary School campuses: Hampton-Moreno-Dugat Early Childhood Center, FMC Elementary, Madderra-Flournoy Elementary, R. A. Hall Elementary, and Thomas Jefferson Intermediate School.

The selected titles are all non-fiction books and come with Accelerated Reader Tests (AR). Scholastic Books provides free AR tests with all of their non-fiction titles. Currently, BISD does not support AR through any budget funds. AR tests are purchased at the individual campus with monies raised through campus book fairs or PTO fund raisers. Purchasing books through Scholastic allows the campuses to increase library holdings with AR books. Non-fiction books correlate with our Social Studies and Science curriculums, as well, as preparing students for reading informational text similar to what is on the TAKS test.

Scholastic Publishing offers free processing and library MARC records, saving library supply monies, and time, so the books can be put into circulation within a few weeks of placing the order. Scholastic Publishing will also give each campus a backpack filled with 30 paperback books, for campuses to use as reward incentives.

All five elementary library campuses are in need of new non-fiction titles. Library standards suggest that non-fiction titles be replaced every 5 years. The non-fiction holdings in the BISD elementary libraries average 15 years. Traditionally, non-fiction books are more expensive than fiction titles; therefore it is difficult to replace large sections of the non-fiction collection at a time. With new curriculum and changes in TAKS testing, many teachers and students are requesting non-fiction books. The addition of 516 non-fiction titles to BISD Elementary Libraries at the average cost \$14.50 will go a long way towards meeting the needs of our students and bringing some of our library collection up to standard.

In the event that only \$5,000.00 of my request can be funded, I will either scale down the order, or use some of my remaining budget funds to make up the difference.

Thank you for your kind consideration,

Melissa Hughes  
BISD Elementary Librarian
