Re: **Research Findings Regarding K-12 Open Enrollment**

Presentation regarding:

- Legal opinion of whether a school district can legally open enrollment to a limited geographical boundary outside of district boundaries;
- Legal opinion of whether acceptance of students from outside of school district boundaries may be based on prior grades, attendance, and behavior;
- Legal opinion of whether the Board can legally revoke open enrollment should future state legislation eliminate the financial incentive; and
- Other research findings such as potential geographical areas for consideration, estimated number of students, and potential advantages and disadvantages of opening enrollment.
