

Partnership Plus

This unique and intensive professional learning solution is ideal for districts adopting a new Savvas digital curriculum to improve teaching, learning, and leadership.

Partnership Plus is a comprehensive service program that provides tailored consultant support in implementing a Savvas digital curricular program for a year (12 months). A dedicated Savvas consultant helps promote consistency in the pedagogical approach, provides a clear point of contact for school and district educators, facilitates continuous improvement across grade levels and schools, and enhances communication and collaboration between Savvas, district leadership, and school administrators and teachers.

The district and Savvas consultant, working in partnership, collaboratively determine the desired teaching and learning outcomes of the partnership as well as the professional learning, including job-embedded support, needed to foster those outcomes. The outcomes are progress monitored by the consultant, and growth data is shared with the district at regular intervals. Services and professional learning are adaptable throughout the year as new district needs emerge.

Partnership Plus Experience

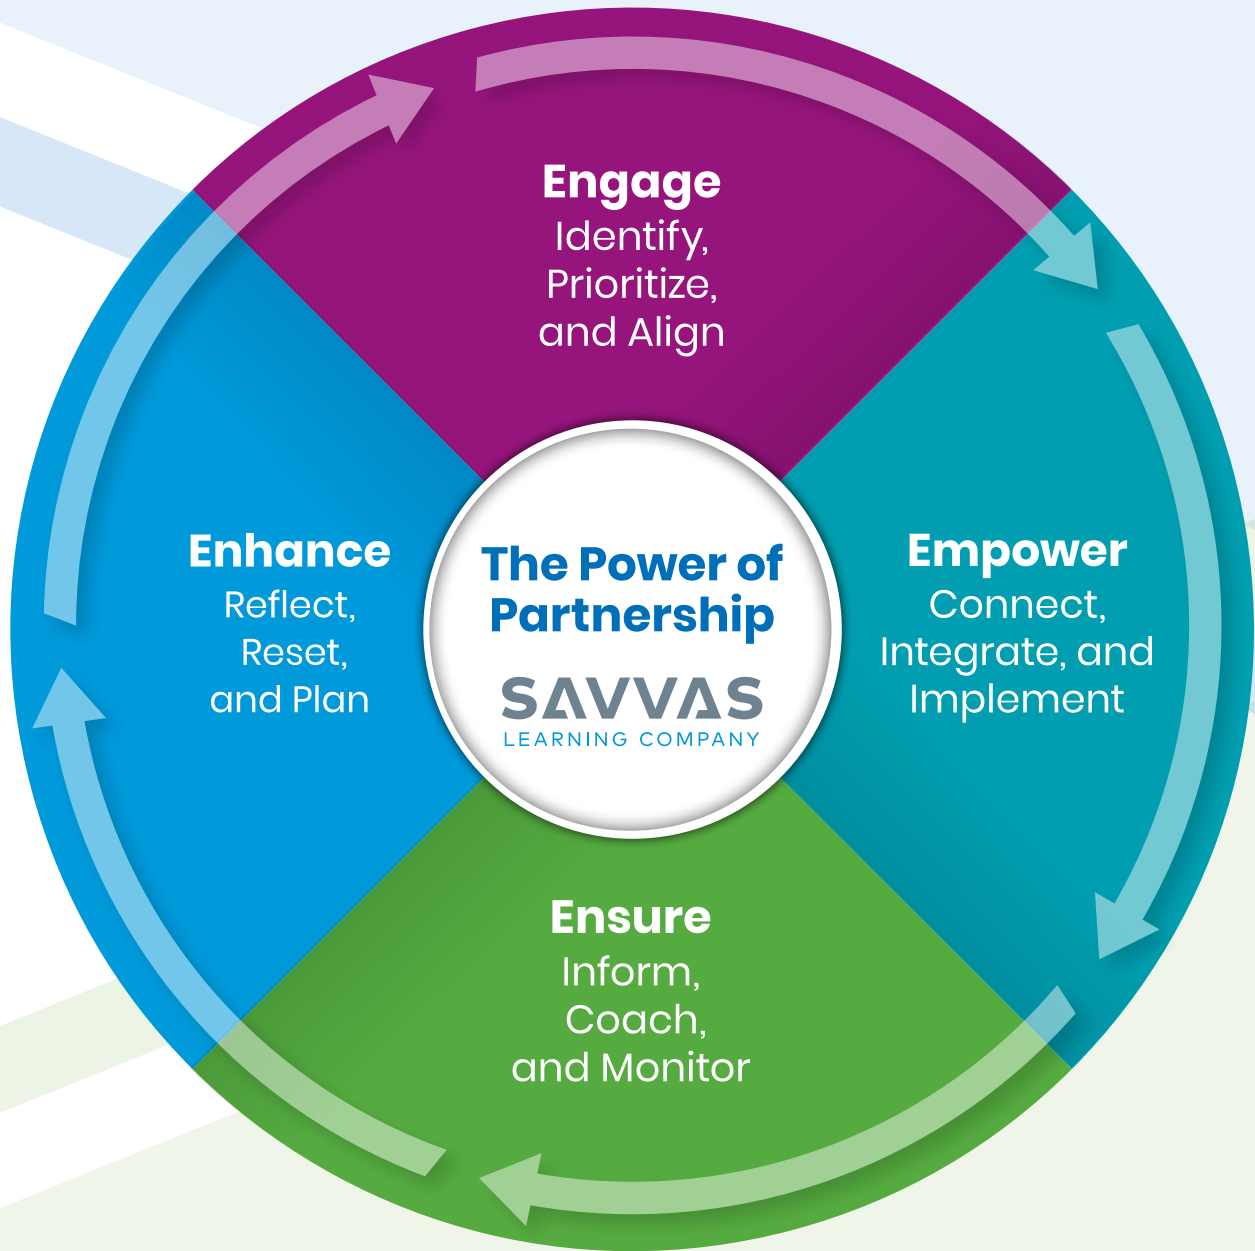

School-Level Instructional Staff	School-Level Administration	District-Level Administration
Coaching and Modeling	Data Reviews	Strategic Planning
Lesson Planning Support	Focus Visits	Data Review
Differentiated Instruction Strategies	Administrative Coaching	PL Design and Planning
Focused Professional Learning Sessions
