

Site Report – Nondalton – March 2024

To: Superintendent Kasie Luke
and LPSD School Board Members

From: Moon McCarley, Principal

Outstanding Activities and Events

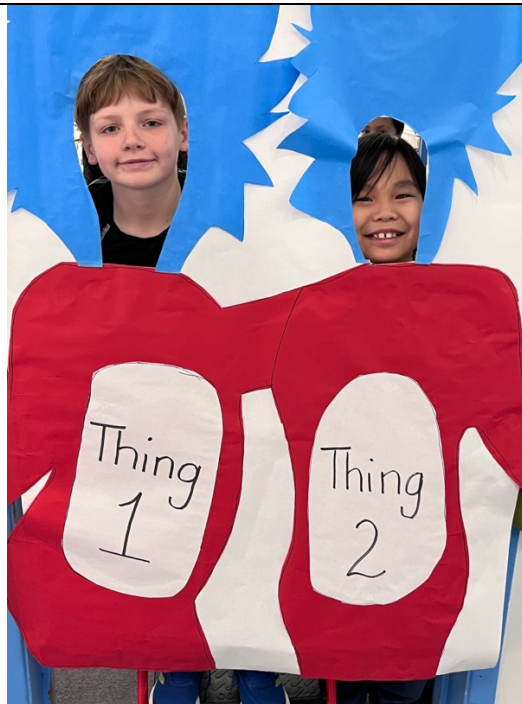

- Several Nondalton students attended the state Educators Rising competition. Gwen Aaberg won first place in her division. She will be the second Nondalton student going to Nationals in two years.
- The Nondalton team attended district basketball in Igiugig and brought home the sportsmanship award.
- The seniors in Nondalton chose April 26th for their graduation date.

Personnel

- We're pleased that Faith Woodcock will be our elementary teacher for the fy25 school year!

Standards Based System/Curriculum Progress

- Ms. Tucker's class celebrated reading with Dr. Seuss day.
- Many of our secondary students are attending the upcoming CTE sessions. It's very helpful that many of those sessions offer high school credit.
- Mr. Blackwell's students participated in 40 hours of ETT classes organized by Mr. Blackwell in conjunction with the BBRCTE program.

Technology Progress

- Technicians from DRC are visiting Nondalton to make repairs to our system.
- Two classroom projectors were replaced with smart TVs

Facility Update

- The school was without water for several days. There is a blockage of some sort (likely frozen) at some point in the city system. We are currently using the school's well. This provides everything except drinking water which is being brought in from another location. We are very appreciative of all the time and effort Tim McDermott and Carl Adams put into resolving this. Shakim Blackwell has become a bit of a plumbing expert as well. 😊

LSAC Activity

- Nothing to report.

Volunteer Report

- Ms. Tucker has been collaborating with the students to design a WARRIOR t shirt. Her brother in the lower 48 is donating his time to make the shirts and gift them to Nondalton students and staff.

Professional Development

- On site professional development has been centered around collaborative planning for student instruction.

Pupil Attendance

- February attendance rate – 93%
We're on the rise!

Student and Staff Safety

- We continue to be cautious with icy conditions.

Subsistence Calendar

- Staff and students are doing their best to address all learning needs within the shortened calendar.
