**Subject: CLASS – Job Embedded Professional Learning: Learning Labs**

The next episode of this year's CLASS program is ready to present to our Board of Education. This episode will showcase a new form of job embedded professional learning called Learning Labs. We are using this form of professional development with staff to support two district literacy initiatives which include implementation of the MAISA reading and writing units and guided reading.

Please consider adding this item to the Instruction portion of the April 20, Board of Education Meeting. Thank you for considering this request.
