Re: Asbestos Abatement Cost Estimate
Illini Central Schools

Dear Mr. Gronewald:

Reliable Environmental Solutions, Inc., RES, has developed this cost estimate report for asbestos abatement based on previous inspection reports and our own environmental inspections. The cost estimate is for environmental professional services and the asbestos abatement of asbestos containing floor tile, floor tile mastic and pipe insulation that will be affected during the upcoming renovation project vocational area. A cost for the abatement of the suspect chalkboards has been included in the event they test positive.

Actual abatement costs will be determined through the bidding process. The time frame for the abatement is estimated to be ten working days. It is anticipated that this work will occur over the 2025 summer.
