Date: November 6, 2017

Subject: FY2019 School Construction and Major Maintenance CIP Lists

Attached are the Department of Education & Early Development's initial agency decision lists of FY2019 Capital Improvement Projects for the School Construction and Major Maintenance grant funds. In addition, two reports are included showing the points each project received in the formula-driven and evaluative scoring elements. One list is sorted by district without regard to fund category; the other list shows projects in priority order.

The department will hold a public hearing in accordance with AS 14.11.016(a), providing school districts with an opportunity to request reconsideration on the eligibility and priority of their projects. Hearings will take place on Thursday, November 30th, at 801 W. Tenth Street, in Juneau via teleconference or in person. The department will review the original decision on the basis of written requests and public testimony by the district, and determine if the decision on the project should be changed. Written requests for reconsideration need to be submitted no later than 4:30 pm on November 30, 2017. Within 15 working days following completion of the hearing, updated School Construction and Major Maintenance grant fund lists will be released.

As you review the lists, please note that there may be changes in ranking for projects that were rated both last year and this year. These changes can be attributed to a variety of factors, including changes to student population projections, projects at different stages of completion, changes to maintenance program scores, additions and deletions of projects by districts, and changes in the submitted application information.

If you have any questions, please let me know.
