B. Morningstar/Walsh Development Update

While we have a number of developments large and small throughout AISD, staff will seek to bring Trustees the most recent developments related to both of the largest current developments in our District.

C. Bond Presentation Schedule

Currently, Administration has scheduled approximately 30 bond presentations prior to the beginning of early voting. Staff will be sharing the updated list for all known presentations at this meeting.

In the interim, please consider any opportunities of which you may be aware so that we can get all necessary information out to the Bearcat Nation.

In addition, Communication Director Rick Herrin will brief Trustees on efforts to distribute information related to the bond to the public via a variety of mediums.
