CONSORTIUM®**  
An **\*ets** company

# **Membership Benefits**

---

Join a network of changemakers **advancing deeper learning, prioritizing learners' mental health** alongside academic success, and **innovating to reimagine classrooms**

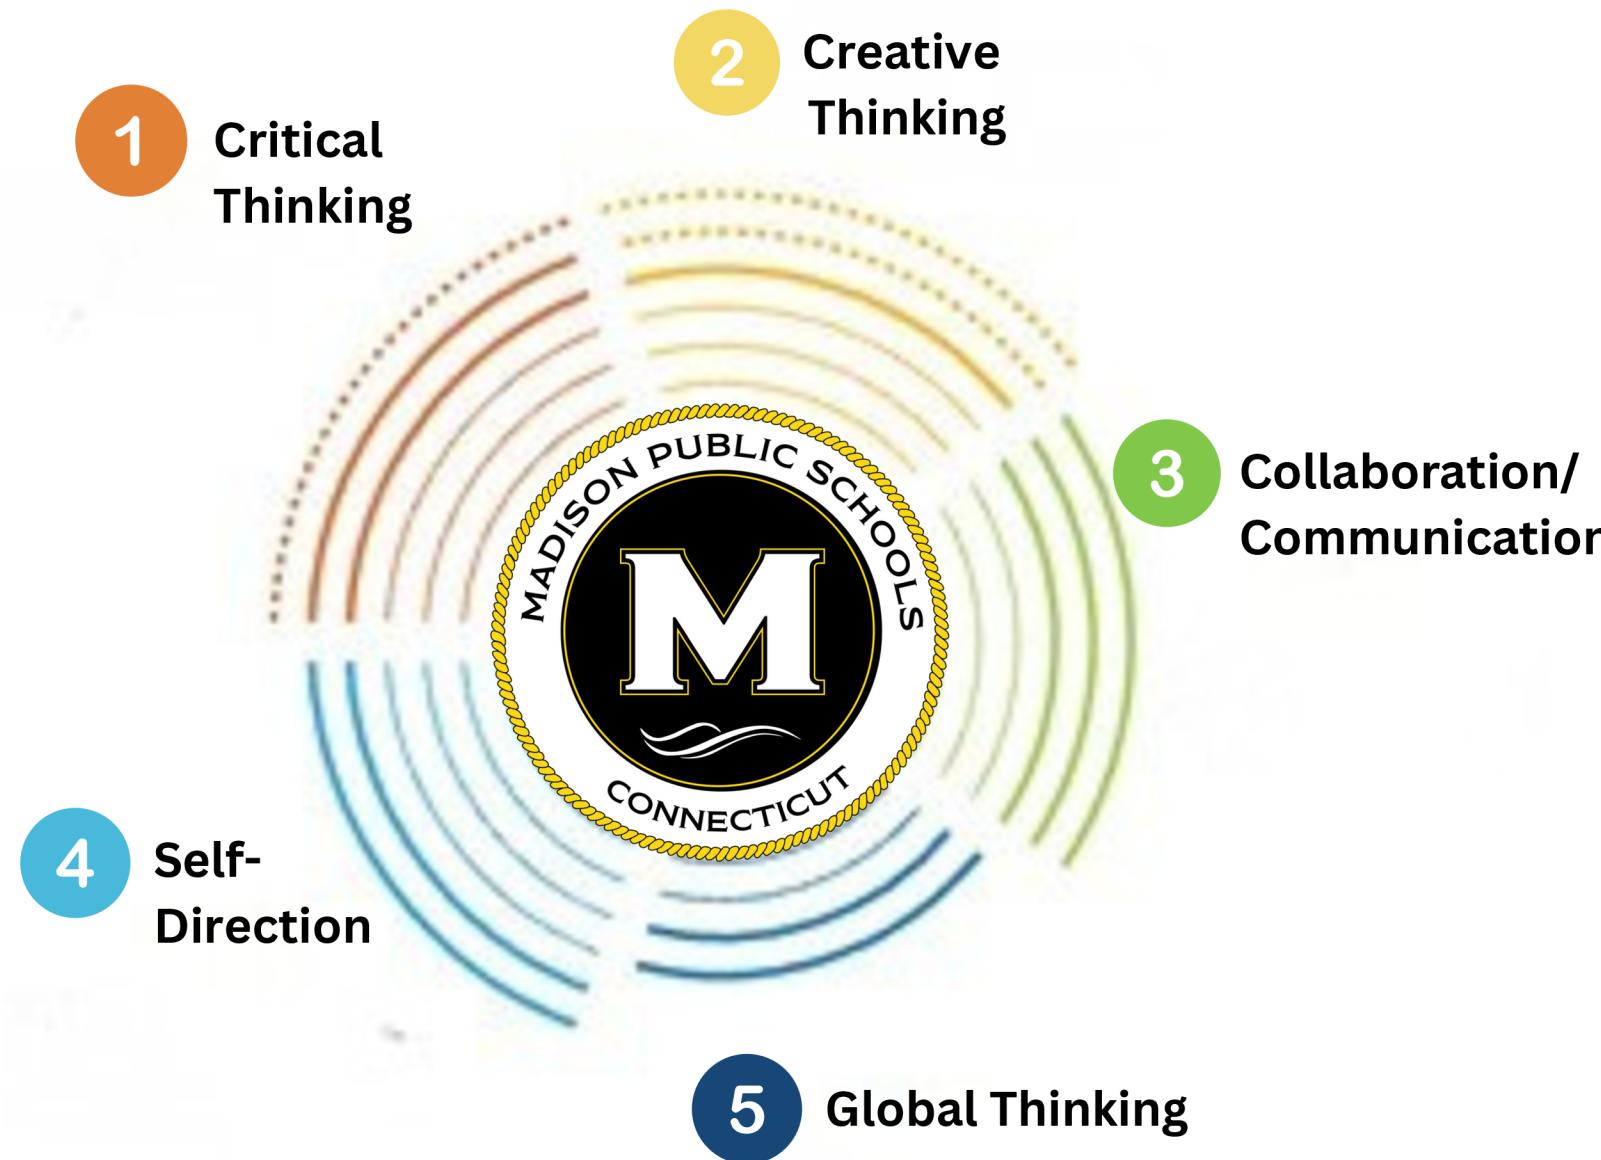

*MTC, an ETS company, is a nonprofit membership organization that helps make mastery learning—or competency-based education—available to all learners. Because this approach does not generate traditional metrics, we co-create uniquely flexible and scalable learning records to solve the challenge of credentialing.*

The **MTC Learning Record** and **Mastery Transcript** showcase evidence of critical 21st-century skills and competencies as students pursue flexible postsecondary pathways to college and career. The **MTC Progress Tracker** facilitates feedback, growth, and snapshots for caregivers.

Digital, customizable tools that make it easy to implement a schoolwide strategy and document evidence of learner progress and mastery aligned with MPS competencies. We help you empower learners and personalize their learning experiences.

Diverse professional learning & networking opportunities, all accessible through your MTC member account. Resources include virtual and in-person discussions and workshops, videos, and more and are designed to meet MPS needs.

## An effective, holistic way to showcase achievements of the MPS Profile of a Graduate

**College admission support** through our partnerships with higher education admission leaders. MTC supports members when they begin publishing records; MTC reaches out to admissions offices nationwide to provide training and guidance.

**State-level partnerships** that support systemic adoption of K-16 competency-based learning models. MTC supports state leaders and welcome partnerships with states, districts, and networks focused on deeper learning and career-connected learning.

**NOTE: This is a PILOT program for current Juniors,  
designed to showcase Profile of a Graduate  
achievements in parallel with a traditional graded  
transcript.**

**It is supplementary and does NOT replace grades.**

**700+**  
Colleges have admitted students  
using Mastery Transcripts &  
MTC Learning Records.
