

Huckabay Independent School District

Board Agenda Item Synopsis

Subject: Consider Approval of Purchase of a Chevrolet Suburban

Background Information: Huckabay ISD currently has two Chevrolet Suburbans. These suburbans are available for sponsors/teachers/coaches to transport students to and from events that involve smaller numbers of students. One of the suburbans is a 2012 with over 100,000 miles. This Suburban has generally transported Special Education students to Dublin ISD. It recently has had some mechanical work on the front wheels and to the front alignment/bearing issues. The other Suburban currently in operation is a 2018 model. This Suburban generally is used for transporting students to events or teachers/coaches to training or other events.

Administrative Consideration: In recently reviewing the small passenger transportation possibilities, an additional Suburban would provide a safe and reliable mode of transportation for Huckabay staff.

Budgetary Impact: \$59,040.

Recommendation: Administration recommends approval of the purchase of a Chevrolet Suburban as presented.
