Summary/Background Information: The Calendar Committee was formed and met on March 2, 2026, to create a draft version of the calendar. The committee had several recommendations and worked to come to a consensus on key elements. That feedback, along with input from the superintendent, resulted in the creation of two versions of the 2026-2027 Academic Calendar. Following the creation of the two versions, the district sought feedback from the community, staff and students.
