Summary

Marble Falls ISD seeks to deploy 380 Clevertouch PRO Series 75" interactive display panels on mobile carts across assigned district campuses. The project is intended to provide mobile, interactive display functionality for classroom, instructional, administrative, and/or shared campus use locations as assigned by the district. This quote is based on the following: 1) all fixed height carts will have panels mounted at a standard height of 38" off the ground; 2) equipment can be delivered to a location at each campus where carts can be assembled and panels can be updated and mounted to the carts; 3) dumpsters will be available at each campus for disposal of packaging.

Campus Locations and Breakdown:

- Marble Falls High School (2101 Mustang Drive) - Qty ??? Clevertouch Pro 75" on iCart-481A98001 fixed height cart mounted at 80" to the top of the display
- Early College High School (1800 Colt Circle) - Qty ??? Clevertouch Pro 75" on iCart-481A98001 fixed height cart mounted at 80" to the top of the display
- Falls Career High School (1800 Colt Circle) - Qty ??? Clevertouch Pro 75" on iCart-481A98001 fixed height cart mounted at 80" to the top of the display
- Marble Falls Middle School (1511 Pony Circle) - Qty ??? Clevertouch Pro 75" on iCart-481A98001 fixed height cart mounted at 80" to the top of the display
- Marble Falls Elementary School (901 Avenue U) - Qty ??? Clevertouch Pro 75" on iCart-487A14001 mCart motorized height adjustable cart
- Colt Elementary School (2200 Manzano Mile) - Qty ??? Clevertouch Pro 75" on iCart-487A14001 mCart motorized height adjustable cart
- Spicewood Elementary School (1005 Spur 191, Spicewood, TX 78669) - Qty ??? Clevertouch Pro 75" on iCart-487A14001 mCart motorized height adjustable cart
- Highland Lakes Elementary School (8200 W FM 1431, Granite Shoals, TX 78654) - Qty ??? Clevertouch Pro 75" on iCart-487A14001 mCart motorized height adjustable cart

System Description

Functionality Description: Data Projections will provide labor and services for the assembly, preparation, mounting, configuration support, and delivery of 380 Clevertouch PRO Series 75" interactive display systems mounted on mobile carts. Each completed system will consist of one Clevertouch PRO Series 75" panel mounted to an iCart mobile cart solution. The mobile cart-mounted display configuration is intended to allow the district to move displays within assigned spaces or campus areas as appropriate. Elementary campuses will have electric height adjustable carts, and the secondary campuses will have fixed height carts. The systems are intended to support interactive display use through the Clevertouch panel platform and associated Clevertouch management licensing identified in the BOM.

Displays: Data Projections will prepare and deploy 380 Clevertouch PRO Series 75" panels for installation onto mobile carts. Each display will be handled, unboxed, inspected for visible shipping damage, mounted to the appropriate cart type, powered on for basic startup verification, and updated/configured as described in this Scope of Work. Installation is restricted to mounting Clevertouch PRO Series 75" panels on the provided iCart mobile cart solutions, positioning the top edge of the display at 80 inches.

Audio: Audio functionality is limited to the native audio capability of the Clevertouch PRO Series 75" panels.

Controls: System control will be limited to the native controls and user interface of the Clevertouch PRO Series 75" panel. For the motorized height-adjustable iCart Dynamic BalanceBox mCart units, cart height adjustment functionality will be limited to the manufacturer-provided cart control method and factory functionality.

Equipment Location: Project equipment will initially be delivered to a central district location. Data Projections will perform cart assembly, display preparation, display updates, and display mounting at the central campus locations. After assembly and preparation, Data Projections will deliver the

completed cart-mounted display systems to the assigned classrooms based on Customer-provided campus allocation instructions provided rooms are accessible. Final placement within each campus is limited to delivery to the assigned campus receiving area, room, or location as coordinated with the Customer. Detailed room-by-room placement is included only if campus assignment lists and room locations are provided in advance and the delivery path is accessible for the completed cart-mounted display systems.

Completion Criteria: Data Projections work for each cart-mounted display system will be considered complete when:

- The cart has been assembled.
- The Clevertouch PRO Series 75" panel has been mounted to the cart.
- The display has been powered on for basic startup verification.
- Applicable update/configuration tasks that can be completed with available Customer-provided information and access have been performed.
- The completed cart-mounted display system has been delivered to the assigned classroom if available or assigned location as coordinated with the customer if not.

Data Projections Service and Maintenance Agreement:

- Our **Silver Service and Maintenance Agreement** will give you peace of mind knowing if an issue does arise, our dedicated service team will address it quickly and efficiently, at no additional cost, to provide you with optimal usage of your audio/visual solutions. Data Projections will process all manufacturer warranty claims per manufacturer limited warranty agreements for hardware purchased through Data Projections.

****Payment Terms Update****

Due to component shortages and backorder delays, Data Projections reserves the right to progress bill for all projects impacted by delays outside of Data Projection's control. Progress billing may include hardware received and stored by Data Projections or the client, and for services rendered at the time of billing.

GENERAL TERMS AND CONDITIONS

Exclusions

The following work is **not included** in our Scope of Work:

- All conduit, high voltage, wiring panels, breakers, relays, boxes, receptacles, etc.
- Concrete saw cutting and/or core drilling.
- Firewall, ceiling, roof, and floor penetration.
- Necessary gypsum board replacement and/or repair.
- Necessary ceiling tile or T-bar modifications, replacements, and/or repairs.
- All millwork (moldings, trim, cut-outs, etc.).
- Patching and Painting.
- Permits (unless specifically provided for and identified within the contract).

This Scope of Work is delivered based on the following Assumptions:

- Site preparation by the Customer includes electrical, wall reinforcement, telephone, and data network infrastructure placement per Data Projections specification.
- All work areas should be clean and dust-free before the beginning of on-site integration of electronic equipment.
- Customer communication of readiness will be considered accurate and executable by the Data Projections project manager.
- In-Room(s) where installation is to be completed is to be made available for Data Projections exclusive use on the days of the scheduled installation. Unless specifically arranged in advance, rooms will be available during normal business hours, defined as Monday through Friday, 8:00 AM to 5:00 PM excluding holidays. All required spaces (rooms, access points, etc.) must be available at the start of the installation and remain available for the duration of the Project. Any required space that is unavailable during the scheduled installation timeframe may result in delayed delivery of the Project and/or additional charges. Additional rates will only be applied after execution of Data Projections generated Project Change Request according to the Change Management Procedure section following and signed approval by Owner or Owner's representative.
- The project schedule must allow for sufficient time for completion of all installation and final testing of systems before occupancy of the site. If sufficient time is not allowed, Data Projections will be held harmless for systems that do not meet requirements. In this case, all costs associated with the completion of work, including overtime labor rates, will be considered outside the scope of this offering and billable to the Client. Unless otherwise stated, the installation shall be scheduled contiguously from start to finish. Projects requiring multiple site visits and/or intervals of inactivity between events must be noted as such before acceptance of this SOW. If notification is made after initial acceptance of this SOW, the Change Management Procedure section following shall be implemented and additional charges may apply. Data Projections reserves the right to revise the proposal/scope of work based upon information obtained from subsequent site surveys and other sources not available at the time that the original proposal was issued.
- Data Projections reserves the right to substitute equipment of similar specifications should any of the specified equipment be unavailable at the time of order from the manufacturer. This will be done in an effort to maintain the completeness of the proposed audiovisual system and meet the anticipated installation schedule. Data Projections will notify the client in the event there is a need for any equipment substitutions.
- Client is to provide secure storage for equipment during a multiple-day integration. If secure storage is not available for the duration of the multiple-day integration period, Data Projections reserves the right to; delay the installation until secure storage is available which could result in project completion delays and additional storage and delay fees; payment in full for the materials and equipment that cannot be secured thus constituting transfer of ownership and relieving Data Projections of its responsibility and liability for security and protection of said materials and equipment against damage and theft.
- If Customer furnished equipment and existing cabling are to be used, Data Projections assumes that these items are in good working condition and will integrate into the designed solution. Any troubleshooting, repair, replacement, and/or configuration of these items that may be necessary will be made at an additional cost.
- All Network configurations including IP addresses are to be provided, operational, and functional before Data Projections' integration begins. Data Projections will not be responsible for testing the LAN connections.
- Cable or Satellite drops must be in place with converter boxes operational before the completion of integration. Any delay resulting in extra work caused by the late arrival of these items will result in a change order for time and materials.
- Document review/feedback on touch panel layout/correspondence will be completed by the Customer within two business days

Integration Project Management Processes

Data Projections will follow a foundational project management process which may include the following actions/deliverables (based on the size/complexity/duration of the integration project):

- Needs Analysis - performed before Scope of Work
- Project Welcome Notice - emailed upon receipt of Purchase Order/Notice to proceed
- Project Kick-Off meeting with Customer Representative(s) - either by phone or in-person
- Project Status updates - informal or formal - either by phone, email, or in-person (based on the size/complexity/duration of the project)
- Project Change Control - comprised of Field Directed Change Order and/or Contract Change Order submittals
- Substantial Completion- Client walk-through and user acceptance training before project is transitioned to Service department

User Acceptance Training

This is geared specifically towards the end-user/operator. The purpose of this training is to provide operators with the necessary knowledge to confidently and comfortably operate all aspects of the integrated system. Areas of training include the following:

- Equipment and system overview
- Equipment operation and function
- Equipment start-up, stop, and shut Down
- Equipment automatic and manual operation
- Discussion and documentation relating to control system operation
- Discussion and documentation relating to system processor and its control applications
- Powering up, powering down AV system via a control system
- Manual operation of display systems, audio systems, and all other related components
- Use/operation of patch panels, when and where to be used
- Who to contact if help is required.

Change Management Procedure

Any changes to the scope of the project that effect the contractual value of the project must be in writing signed by the Client and an authorized representative of Data Projections, Inc. Oral changes to the project scope, equipment, or materials shall not be binding upon the parties. Changes may impact the ability of Data Projections, Inc. to deliver the desired solution per the original terms of the Contract. After acceptance of this Scope of Work, such signed and approved change orders will be incorporated by reference into and become part of this Contract.

Proprietary Notice

This proposal contains confidential information and intellectual property of Data Projections and may be legally privileged. The recipient agrees not to reproduce or make this information available in any manner to persons outside the group directly responsible for the evaluation of its contents.

Returns

The approval of product returns is at the discretion of Data Projections and the specified manufacturer and requires a return authorization number if the request is approved. Products that are defective will be repaired, replaced, or credited in accordance with the manufacturer's warranty. Goods returned for reasons other than warranty or defect must be requested in a timely manner and must be in their original, undamaged, and untarnished condition and must include all original packaging, documentation, and accessories. Restocking fees may apply to the items being returned. Any custom-ordered products are not eligible to be returned. Please consult Data Projections for additional details.

Warranty

All new equipment provided by Data Projections includes each manufacturer's full warranty from the date of invoice. Data Projections will honor all manufacturer warranty requirements as depot service. Data Projections supplies a 90-day workmanship warranty from the date of completion of the said system unless superseded by an extended warranty, or Data Projections service agreement. Data Projections warrants the system to be free of defects in materials and workmanship and fit for the intended purpose. This warranty does not cover equipment or system abuse, misuse including, but not limited to, operating outside of environmental, electrical, temperature, or humidity specifications, system alterations neither approved nor performed by Data Projections; or repair by a service facility other than those authorized by the manufacturer.

Indemnification

Data Projections agrees, to the fullest extent permitted by law, to indemnify and hold harmless the Client, its officers, director, and employees (Collectively, Client) against all damages, liabilities, or costs, including reasonable attorney's fees and defense costs, to the extent caused by the Data Projections' negligent performance of professional services under this Agreement and that of its subcontractors or anyone for whom Data Projections is legally liable. The Client agrees, to the fullest extent permitted by law, to indemnify and hold harmless Data Projections, its

officers, directors, employees, and subcontractors (collectively, Data Projections) against all damages, liabilities, or costs, including reasonable attorneys' fees and defense costs, to the extent caused by the Client's negligent acts in connection with the Project and the acts of its contractors, subcontractors or consultants or anyone for whom the Client is legally liable. Neither the Client nor Data Projections shall be obligated to indemnify the other party in any manner whatsoever for the other party's own negligence.

No Hire Policy

During the term of the Contract, and for a period of one (1) year after the termination of the Contract, or the completion of the project, whichever is later, the Client agrees that it will not directly solicit the employment of any individual that was employed by Data Projections during the term of the Contract. In the event Client breaches this provision, the parties agree that it would be difficult to establish the precise amount of damages incurred by Data Projections as a result of such conduct, and therefore the parties agree that immediately upon hiring said individual, Client shall pay to Data Projections an amount equal to 50% of the gross annual salary or wages paid to the individual in question during the twelve months before the termination of that individual's employment with Data Projections. This fee shall not apply if the individual responds to a general employment advertisement through newspapers, online job boards or postings, agencies, open houses, or job fairs.

Payment Terms

The total for this proposal/project is presented as a "not to exceed" unless Data Projections and the Client agree to add hardware, software, or functionality not specifically addressed in this Statement of Work/Executive Summary. If the project is delayed due to the client or client's facility not being ready within the agreed upon timeframes, or as a result of backorder delays outside of Data Projection's control, the Client may be requested to issue payment for the hardware as it is physically received.

The payment schedule is contingent on the established line of credit approved by the company. If credit terms are extended, the standard terms are NET 30 days. If credit terms are not requested or extended, payment will be required in full before hardware is ordered or installation dates are scheduled. Data Projections will assess a surcharge of 2.29% on all credit card transactions to cover our processing costs. The surcharge imposed will not be greater than the direct cost incurred from the processing of credit card payments. Data Projections does not surcharge debit card transactions.

***Data Projections reserves the right to invoice for hardware upfront and to progress bill for all projects as necessary. Progress billing may include charges for hardware upon order placement, hardware received and stored by Data Projections or the client, and for services rendered at the time of billing. This ensures project continuity and alignment with procurement and implementation timelines.**

***Data Projections reserves the right to pass through to the customer any additional costs incurred from tariffs, duties, or similar fees imposed by government action. Such costs may be invoiced to the customer at any time, including after an order has been placed or equipment has shipped. All charges will be clearly communicated and will reflect only the actual increase in cost incurred.**
