

**Updates & Events:**

- Community Ed had a booth at the Cuyuna Lakes Chamber Expo on Saturday, May 4th. This was a great opportunity to engage with many people from the community. Many people expressed the need for more adult classes and activities - especially geared toward senior citizens.
- The Wetterling-Baker Author Event was held on Saturday, May 11th at the High School. We sold 95 tickets and had 85 people attend. A lot of positive feedback has been received about this event and the desire to have more opportunities like this one. We still have a handful of autographed copies of the book that can be purchased through Community Ed.
- Lakes Area Custom did a sign making class for students on Wednesday, May 15th. We had 6 students participate in this class where they made a C-I logo sign customized with activity icons of their choosing. We are exploring options for future student and adult opportunities through this partnership.
- Registration is open for before and after school care through Healthy Kids.
- We will be offering a Target Field tour and Twins game field trip for students in July where they will learn more about the science behind Target Field's eco-friendly practices and meet with Twins meteorologist (and C-I Grad), Mace Twigg, to learn about the science of predicting weather for baseball games.
- Summer picnics are set to begin on Wednesday, June 5th. They will be held every Wednesday from 11am - 1pm in the Crosby Memorial Park with the exception of June 19th and July 3rd. We are working on a monthly activity in Emily for summertime.
- The next play will be held June 24th-29th. Missoula Children's Theatre will be putting on a production of "The Pied Piper." Performances will be Friday, June 28th at 6pm and Saturday, June 29th at 2:00pm in the Mayberry Auditorium.

**Early Childhood:**

- We are assessing registration numbers and staffing needs for next school year.
- We currently have 21 students registered for Little Rangers (4 year olds) and 5 students registered for Little Miners (3 year olds).
- The last week of classes for Early childhood is May 20th - 24th.

**Advisory Council:**

- We are in the process of working with Sourcewell to schedule a goal setting workshop for the Advisory Council that will occur over the summer months. Our next regular meeting will be next fall.
