

## **DRAFT RESOLUTION OF THE CORDOVA SCHOOL DISTRICT**

### **BOARD OF EDUCATION**

Resolution No. 2018: 001

#### **A RESOLUTION SUPPORTING AND ADVOCATING FOR EARLY LEGISLATIVE ADOPTION OF EDUCATION FUNDING**

The Cordova School District Board of Education recognizes the Alaska Legislature's role in providing for adequate and equitable funding to support local implementation of Alaska's public education system, including timely notice to school districts in order to effectively plan for instructional and programmatic needs, student support services, and operations using public funds. Specifically, the Board of Education encourages the legislature to adopt legislation approving education funding by April 1 of each year.

As the governing board responsible for providing a quality public education for each student in our district, we are resolved to ensure that our district continues to thoughtfully budget for the district operations in meeting the wide range of educational needs of our students.

**NOW, THEREFORE, BE IT RESOLVED**, the Cordova School District Board of Education recognizes that the Legislature plays a pivotal role in supporting the local implementation of the public school system and advocates for the passage of legislation identifying April 1 as the timeline for approving education funding.

Approved by the Cordova School District Board of Education
