**SUBJECT:** Board consideration of expanding Prekindergarten to a full-day program.

**RATIONALE:**

Over the past several months we have discussed the possibility of expanding our Pre-K program from a half-day to a full-day program. We have estimated the cost to fund the program at \$300,000. The administration has been working to shrink this number and to possibly shift currently budgeted funds to offset the cost.

During the budget workshop portion of the meeting, we will present information regarding the potential funding for full-day Pre-K.

**RECOMMENDATION:**
